BEST FROM THE WEB!!!

New Apprenticeship Training TAX CREDIT for EMPLOYERS!

The Ontario government has introduced a new Tax Credit for self-employed taxpayers to encourage the hiring of apprentices in certain skilled trades. It consists of a **25-30% income tax credit** refund up to **\$5000** for the **employer**. The apprentice must have been employed for the entire year and be in the first 36 months of their apprenticeship. The credit is claimed on line 29 of the **ON479** Income tax form of the self-employed employer. **Walter Drake** has copies of the explanation for any member who wishes to investigate further. We as an industry need apprentices and the government is willing to help pay us to hire new blood! **Don't miss out!**
