IN THE TAIL LIGHTS

Clinton Smith an **Esso**

employee for 33 years dissected the Environmental Protection Agency (**EPA**) 2007 emissions requirements and the future

Imperial Oil

necessary changes to meet the 2010 standards. The presentation dealt with Esso's **API CJ-4 oil** and how it is **100% backwards compatible** to the older engines. He also discussed why a new oil category was required and what has also needed to be done by the industry to improve the environmental impact of the trucking industry on our planet. Including the reworking of diesel turbines, exhaust systems and the inclusion of catalytic particulate filters.

A very sad note!

We regret to inform you that A.T.S.S.A. 'Life Member' and a true Gentleman **Royce Perry passed away September 18th, 2006.** A former owner of John Thomas Cartage, Royce was known and loved by many in our industry. Although Royce had retired a 'few' years ago he was still an active member of our executive and had returned as a volunteer to the C.F.M.S. every year since the early 1970's. An avid golfer and a Snowbird, Royce had a very full and busy retirement and his death has shocked many people north and south of the border. Our prayers go out to his wife Jean and his family and friends.
